

# COMMITTEE WORKSHOP ON THE PROPOSED ELECTRICITY RESOURCE AND BULK TRANSMISSION DATA REQUESTS

December 21, 2004

Al Alvarado

Staff Project Manager

*Electricity and Natural Gas Analysis in Support of  
the 2005 Integrated Energy Policy Report*

# Workshop Discussion

- *Follow-up to November 18, 2004 Workshop*
- Proposed Electricity Resource Data Request
- Proposed Data Request for Transmission Planning Activities

# ***Integrated Energy Policy Report***

- Conduct assessments and forecasts:  
“... To perform these assessments and forecasts, the commission may require submission of demand forecasts, resource plans, market assessments, and related outlooks from electric and natural gas utilities, transportation fuel and technology suppliers, and other market participants....” (Pub. Res. Code 25301(a))

# Analytical Scope

- Planning process needs to consider the entire state and region, including investor-owned utilities, municipal utilities, electric service providers, etc.
- Planning needs to integrate considerations of load growth, load management, generation planning, and transmission planning

# Statewide coordination and evaluation

- *Energy Report* process will provide input to future CPUC procurement proceedings
- *Energy Report* process will build on existing CA ISO grid planning process

## Next steps

- **Week of January 3rd:** Proposed Forms & Instructions
- **Jan. 19, 2005:** Consideration of Forms and Instructions at Commission business meeting
